

Programme

6th EVSSAR Annual Symposium Wroclaw 2009

Friday 05.06.2009	
14.00-19.00 Registration 19.00-21.00 Welcome party	
Saturday 06.06.2009	
8.00-8.30 Registration cont. 8.30-8.40 Opening Ceremony	
Session 1 SMALL ANIMAL REPRODUCTION IN EVERY-DAY PRACTICE	Session 2 RESEARCH IN SMALL ANIMAL REPRODUCTION
<p><i>Chairpersons: W. Nizanski and P. Bogaerts</i></p> <p>8.40-9.20 Aspects on the role of steroids and prostaglandins as paracrine/endocrine factors involved in the control of luteal function in the pregnant and non pregnant dog (B. Hoffmann)</p> <p>9.20-9.25 Discussion</p> <p><i>Imaging and Assisted Reproductive Techniques in Small Animal Reproduction</i></p> <p>9.25-9.55 Ultrasonographic fetal biometry in bitches and queens (G.C. Luvoni)</p> <p>9.55-10.00 Discussion</p> <p>10.00-10.30 Artificial insemination in dogs (T. Rijsselaere)</p> <p>10.30-10.35 Discussion</p>	<p><i>Clinical advances</i></p> <p><i>Chairpersons: J. Twardon and A. von Heimendahl</i></p> <p>8.40-10.40 8 free communications (10 min + 5 min discussion)</p> <p>8.40 Levy et al. Performance evaluation of the new blood test Odelis® CPSE in the diagnosis of BPH in dogs</p> <p>8.55 Pierson et al. A case of XX sex reversal in an American Cocker Spaniel with a cystic uterus masculinus and a funiculitis</p> <p>9.10 Hagman et al. Mast cell enzyme measurements in female dogs with pyometra</p> <p>9.25 Orfanou et al. Treatment of staphylococcal canine mastitis with clindamycin</p> <p>9.40 Domoslawska et al. Folic acid blood level in bitches with lip and/or palate cleft affected litters – preliminary results</p> <p>9.55 Rota et al. Antimicrobial resistance of bacteria found in the vagina and milk of periparturient breeding bitches: relevance for neonatal mortality?</p> <p>10.10 Jurka and Max Treatment of feline fibroadenomatosis using aglepristone: Effectiveness and further fertility</p> <p>10.25 Fontaine et al. Adaptation of a new technique of transcervical intra-uterine technique in the queen</p>
10.40-11.00 Coffee Break and Poster exhibition	10.40-11.00 Coffee break and Poster exhibition

<p>Medical and Surgical Control of Reproduction in Small Animals</p> <p><i>Chairpersons: J. Thuròczy and T. Janowski</i></p> <p>11.00-11.45 New drugs in canine reproduction (<i>A. von Heimendahl</i>) 11.45-11.55 Discussion</p> <p>11.55-12.40 The optimal age for spaying bitches? – benefits and risks of pediatric, pre-puberal and puberal spaying (<i>S. Arnold</i>) 12.40-12.50 Discussion</p>	<p>Biotechnological advances</p> <p><i>Chairpersons: T. Rijsselaere and G.C. Luvoni</i></p> <p>11.00-11.40 Epigenetic programming in the preimplantation embryo (<i>A. Gutierrez-Adan</i>)</p> <p>11.40-13.00 5 free communications (10 min + 5 min discussion)</p> <p><i>11.40 Karre et al.</i> Distribution and vitality of spermatozoa in the canine female genital tract during postovulatory oocyte maturation</p> <p><i>11.55 Strzeżek et al.</i> Effect of ejaculate collection procedure of dog semen on the activity of acrosin system in spermatozoa</p> <p><i>12.10 Koderle et al.</i> The influence of cryopreservation and seminal plasma on the chromatin structure of dog spermatozoa</p> <p><i>12.25 Apparicio et al.</i> In vitro maturation of canine oocytes in a bi-phasic system using gonadotrophin and steroids</p> <p><i>12.40 Filliers et al.</i> Expression of Oct-4 protein in cat oocytes and preimplantation embryos</p>
13.00-14.30 Lunch	
<p>Plenary Session</p> <p>REPRODUCTION IN CATS AND FERRETS</p> <p><i>Chairpersons: A. Dubiel and S. Arnold</i></p> <p>14.30-15.15 Practical aspects in feline reproduction (<i>J. Thuròczy</i>) 15.15-15.25 Discussion</p> <p>15.25-16.10 Management of reproductive problems in ferrets (<i>A. Meredith</i>) 16.10-16.20 Discussion</p>	
16.20-17.00 EVSSAR Annual Meeting 19.30 Gala Dinner
