

MOTIVATION LETTER

Dear EVSSAR board and members of EVSSAR,

I would like to apply for a position in the EVSSAR board as a practitioner.

I have been a member of EVSSAR since 2006 and I see the annual congress of EVSSAR the most important opportunity to share ideas, discuss about the difficult topics and update the new insights in small animal reproduction. Meeting all the enthusiastic people around the world refreshes thoughts and gives strength to everyday work. To improve the field we need to share research, advanced teaching and practical experience. I would like to be part of this development and give my contribution to the society.

Sincerely yours
Tuire Tamminen
