

22nd EVSSAR Congress Berlin (G), 28-29th June 2019

POSTERS

No	First Author	Title
12	Alamo	CD20, but not CD45RA, a possible serum biomarker for malignant mammary tumours in bitches
29	Alamo	Is urine glucose concentration correlated with glycaemia in neonates? A preliminary study
13	Alamo	Superfecundation in feral queens: Fact of fake? A preliminary study in feral queens
3	Arlt	What happened when I (neutered male dog) ate my owner's progesterone capsules
75	Batista	Cardiovascular changes of bitches suffering from cystic endometrial hyperplasia – pyometra complex
125	Beccaglia	Incidence of microbial contamination of ejaculate in male dogs presented for infertility.
99	Borikappakul	Prostatic Adenocarcinoma in Neutered Male Dog: A Case Report
65	Brutinel	Computed tomography and ultrasound examination of subcapsular prostatic cyst in a five-year-old dog with severe benign prostatic hyperplasia
109	Cigánková	A case report of a chronic vaginitis caused by a polyglycolic acid suture
61	Conze	Evaluation of progesterone measurements with the Speed Reader®
57	Conze	Standardization of the assessment of exfoliative vaginal cytologies
24	Crusco	Semen evaluation in pomeranian dogs
152	Dejenka	Dystocia in dachshunds – a case study
85	Domain	CHARACTERISATION OF EXTRACELLULAR VESICLES IN THE CANINE EJACULATE: PRELIMINARY RESULTS
42	Egyptien	Melatonin implants to control estrus in Belgian breeding queens
118	Faya	Long term effect of the GnRH antagonist acyline on corporal and radiographic development of domestic cats
80	Fernandez-Gonzalez	Comparison of different materials for self-pressurized vitrification of feline oocytes
107	Ferre Dolcet	Interval between removal of 4.7mg deslorelin implant and restoration of the function of sexual hormones in cats
44	Ganz	Exogenous uptake of estrogen as a differential diagnosis to Ovarian-remnant-syndrom
53	Ganz	Systemical analysis of the literature regarding dystocia in the bitch
47	Gobello	Physical, histological, endocrinological and steroidogenical evaluation of male cats postnatally exposed to sexual steroids
6	Gobello	Feline testicular ultrasonogram before and after spermatogenic arrest
117	Goericke-Pesch	Morphometric sperm head deviations in a poodle: a case report
91	Górka	Successful relocation of pregnant horn trapped in inguinal hernia – a case report

150	Groppetti	Sexual chromosome distribution, fertility and hormonal insights: preliminary results in dogs
157	Gültiken	Anti-Müllerian hormone concentration and its correlation with ovarian follicle numbers during cat pregnancy
103	Kacprzak	The concentration of IL-2 in peripheral and uterine blood in bitches with pyometra
105	Kanafa	The use of doxycycline for Mycoplasma treatment in early pregnancy in dogs – a preliminary study
124	Kanafa	Leukemoid reaction in bitches with pyometra
104	Kanafa	The concentration of IL-6 in peripheral and uterine blood in bitches with pyometra
111	Kaszak	Fetal bones in the caudal vagina of a bitch 14-months post-spaying
50	Kaszak	Comparison of CEA and CA- 15-3 levels in serum of the bitches with mammary tumors and in healthy ones
160	Kaszak	Anastrozole treatment of idiopathic hyperestrogenism in a 5 year-old castrated male dog
158	Kaszak	Vaginal tumor together with ovarian cysts, uterine tumor, cystic endometrial hyperplasia, and mammary gland tumor in 14-years old bitch
100	Kautz	The autologous ovarian tissue cross side transplantation enhanced by platelet rich plasma (PRP) performed in a rat model.
123	Kim	Similarities in growth and reproduction parameters in three cloned dogs
131	Kim	Alternation of heart rate during interval exercise in genetically identical cloned beagles and non-cloned beagles
161	Kozhevnikova	Towards good quality feline embryos: improving embryo culture by supplementation with growth factors
168	Kutzler	Luteinizing hormone receptor expression in canine lymphoma
34	Langlade	Comparison of endoscopic-assisted transcervical and Norwegian insemination: a retrospective clinical study
51	Laurusevicius	Comparison between computed tomography and ultrasonography of prostate gland volume in intact healthy male dogs
120	Lee	Analysis of hematology and serum chemistry parameters in small breed dogs associated with ovariohysterectomy
119	Lee	Analysis of hematology, serum chemistry and reproductive function-related biomarkers in accordance with the age of large breed dogs
134	Lejong	Emergency C-section and pre-natal maternal corticosteroid therapy: Three cases in pre-term brachycephalic dogs
110	Leykam	Prolonged whelping with birth of a vital puppy in a Labrador Retriever – A case report
84	Ligocka	The vertical vaginal septa diagnosed in five Newfoundland dogs – a case report
165	Mantziaras	Transabdominal ultrasonography of the accessory glands in clinically normal intact tomcats. Preliminary results.
153	Mantziaras	Computed tomography of the accessory glands in clinically normal intact tomcats. Preliminary results.
37	Mateus	Neonatal mortality in Labrador Retriever puppies
40	Mateus	Uterine stump adenocarcinoma with lung metastasis in a 14-year-old bitch
113	Mello Martins	Correlation between sperm kinetics and Doppler velocimetry of domestic feline testicular artery
46	Mila	Who are dog breeders?

70	Milani	Vaginal microbiota of healthy anestrus bitches: culture vs genomic analysis results
135	Nizański	Six years old French bulldog (78,XX; lack of SRY gene) with disorder of sex development and Sertoli cell tumor - a case report
97	Ochota	Fertility-sparing surgery in a pedigree queen
132	Qamar	Role of mesenchymal stem cell derived factors in the enhancement of parameters associated with sperm quality in dogs
89	Robiteau	Pseudopregnancy and mammary tumors development in the bitch
14	Roos	Triplex doppler ultrasonography in pregnant and non-pregnant bitches of different sizes to describe the uterine arteries after breeding.
69	Rota	What happens to the bitch uterus after ovariectomy? Histological observations and tomographic appearance
5	Savolainen	Deslorelin implant to induce temporary infertility in tomcats
154	Schirmer	Investigation on IgM and IgE as possible cause of hypoluteoidism in dogs
7	Sibcic	Acute gangrenous mastitis in the bitch with clinical signs of sepsis
93	Siugzdaite	Aerobic bacterial flora isolation from the prepuce of stud dogs
138	Souza	Colostrum absorption in one canine neonate: intestinal epithelium histochemical aspects
76	Tamminen	Parturition monitoring with human cardiotocography in the bitch
163	Thuroczy	Semen quality of dog, compared with haemocytometer and dog-side ONGO sperm analyser
144	Tiberiu	Unilateral intra-abdominal cryptorchidism and mammary gland collagenous hamartoma in a male dog: a case report
86	Wydooghe	INQUIRY ON THE ATTITUDE AND EXPERIENCES OF OWNERS TOWARDS NEUTERING THEIR DOG
136	Wysmolek	Possible estrogen-induced nonregenerative anemia in a dog: case report
148	Zahmel	Impact of culture medium on in-vitro maturation and fertilization in the domestic cat
