

Paulo Borges graduated in the University of Trás-os-Montes e Alto Douro (UTAD), Vila Real, Portugal. Presented his master thesis in the topic of “Heat-Shock Proteins in the canine semen throughout cryopreservation techniques”. Paulo performed an internship in the University of Lisbon (FMV-UTL). During 6 years, he was an assistant consultant in the CERCA, ENVA (Centre d’Études en Reproduction des Carnivores) and co-responsible of the dog and cat breeding department (UMES) in the National Veterinary School of Alfort (ENVA) – Paris. He fulfilled the residency program of the European College of Animal Reproduction, in the CERCA-ENVA-Paris, becoming an ECAR diplomate in 2015. After one year working in a private practice, he did between 2017-2018, one year as a PhD student in the NeoCare Unit of the National Veterinary School of Toulouse (ENVT) in the field of infectious diseases in neonatology and pediatric dogs. Furthermore, he worked in the carnivores semen bank, CRECS, in the south of France for one year. Currently, he is working full-time in a general practice from October 2018-October 2019 in a veterinary clinic “Medivet”, in the south of France, Corneilla-del-Vercol. Also, he works as a reference consultant in reproduction and collectivity medicine in Portugal and France. He is working as an assistant professor, in a partial collaboration with the Lusofona University in Lisbon, Portugal. He works as a lecturer for breeders and veterinarians for several teaching companies, such as LOF (France), Hospital Veterinário Montenegro (Porto) and Hospital Veterinário Atlântico (Mafra). He is also the vice-president of the reproduction group in France, GERES-AFVAC. He has been invited to lecture in different countries in South America, Asia and Europe. He is also author and co-author of several scientific articles, along with several chapters of books and manuscripts.
