27 March 2021

Dear EVSSAR member,
Dear colleague,

**The 23rd EVSSAR CONGRESS
will be held on-line, from 1st to 2nd of October 2021**

First Announcement

It is with great pleasure that we announce the 2021 EVSSAR congress, which will be held on-line! The congress venue will be your couch, close to all the facilities of your house or office! This is, of course, not the same as meeting each other in real life, but we are making the best out of the current situation.

We plan to invite speakers from different specialist fields to present the latest news about new developments in the field of small animal reproduction. In our 2021 online congress we will continue the European and global scientific discussion, as well as the exchange of ideas after the long pause due to the COVID-19 pandemic.

EVSSAR always aims to address both practitioners and researchers! We are optimistic that the program will be really beneficial for you. Save the date and stay tuned for more information that will come soon!

The call for abstract submission will soon follow– please visit www.evssar.org for further information

We are all looking forward to a special scientific program and to meeting each other in October!

On behalf of the EVSSAR Board

George Mantziaras
EVSSAR President

Sebastian Arlt
EVSSAR Vice president
