Dear Dr.Borges, Dipl.ECAR, the Secretary of EVSSAR,

I am writing this letter in response to the open position for the EVSSAR Board as a practitioner.

I have been a member of this exclusive society since 2000.

During these 23 years I attended most of the scientific and social events organized by our society starting from my first meeting in Oslo, Norway in 2000.

During these 23 years I had the chance to meet many fantastic people from all over the world who shared a common interest 'Small Animal Reproduction'.

During these 23 years I was honored to meet many legends in small animal reproduction whom I started calling 'friends'.

I am confident that my skills, titles, educational and scientific background, enthusiasm and personality make me an excellent candidate for this position.

I have 23 years of clinical experience in small animal reproduction medicine, both in private practice and in university clinics.

I have plentiful experience in chairing committees, organizing national and international events, and increasing the bond among the members since I was in the Board of Turkish Small Animal Veterinary Association between 2000 and 2004 serving as the secretary of the association.

I have been contributing to our society in many ways in the last years.

I have many ideas to expand the range of activities and try to outreach as many small animal veterinarians as possible for the growth of our society.

I am very well aware of the load that the position will require such as some hours per week or even per day to fulfill the main duties or additional hours and trips to attend the board meetings. I anticipate and accept all these additional hours and work load with pleasure.

I am a good listener and open-minded person therefore I am ready to listen to all the needs and expectations of all EVSSAR members including the Board members.

It will be a great honor for me to serve on the Board of EVSSAR.

Sincerely,

Assoc.Prof. Hasan Sontas, PhD, Dipl.ECAR  
Communication Committee member of European Board of Veterinary Specialisation®  
National Representative of European Board of Veterinary Specialisation® for Austria and Turkey
